BlogHarmony

NEW DELHI •

The blog is designed to be accessible and visually appealing on various devices. Dynamic Content: JavaScript is used to enhance the user experience by adding dynamic elements. CSS Styling: A clean and intuitive layout with thoughtful styling for a seamless reading experience.

JavaScript, API

WeatherApp

NEW DELHI •

This simple weather application is created using HTML, CSS, and JavaScript, providing users with current weather information for a specified location. This Weather App utilizes the OpenWeatherMap API to fetch real-time weather data.

JavaScript

Wordle

NEW DELHI •

Built with HTML, CSS, and JavaScript, invites you to decipher a hidden word through intuitive feedback and dynamic word selection.
